Welcome to the Future TelePresence for Everyone, Everywhere

High-Definition Video to the Desktop

Patrick Geiser, Consulting Systems Engineer, Cisco TVSS

November 2010

InfoNet Day
Information & Networking
2010

Agenda

- Why Telepresence ?
- Different Flavours of Telepresence Endpoints
- Telepresence on the Desktop
- Video-Infrastructure: What's in there...

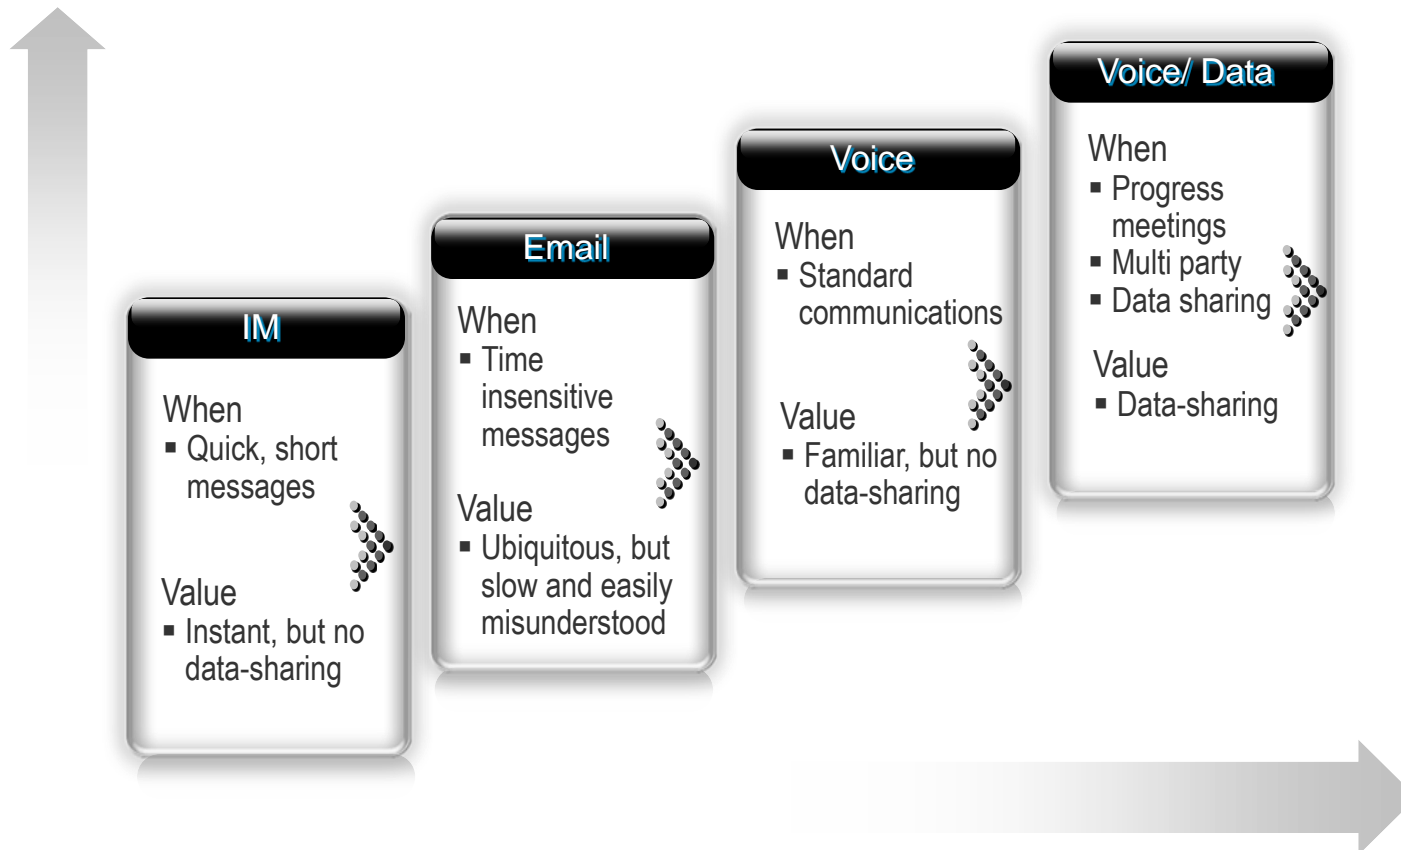

Why Telepresence ?

- Collaboration in the past
 - eMail, IM, Voice,...
- Audio vs. Video
 - What are you missing?
- Collaboration today
 - Video is the new voice

How do you collaborate today?

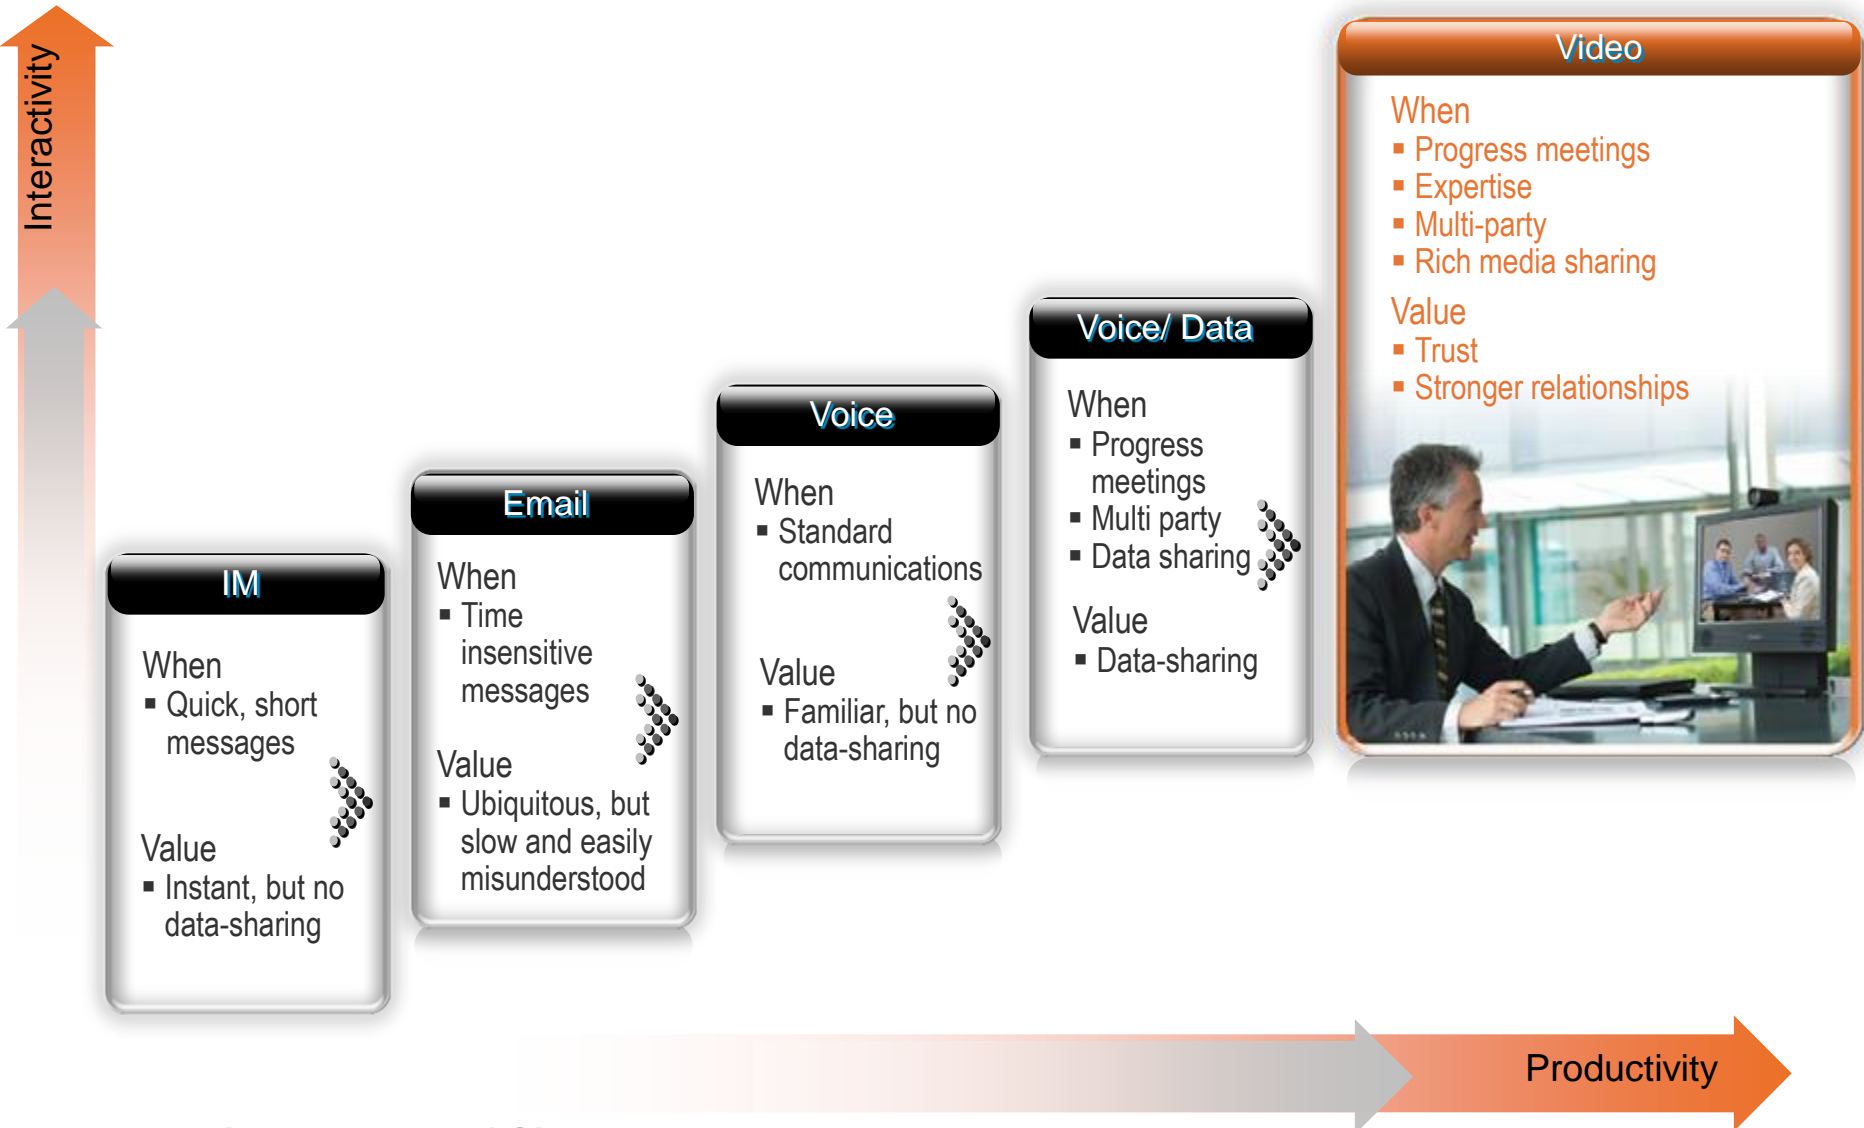

With voice-only you are **missing 100%**
of the unspoken communication

7% words
38% tone of voice
55% body language

Collaboration is key to make decisions faster

If everyone knew what video could do,
everyone would want it –
It is the **New** Way of Working

Value of a Successful Implementation of Visual Communication

Make you faster and more efficient
Save cost
Be green

**Tele Presence is the key to successful collaboration;
the new way of working puts people at the center ...**

enabling you to do more with less
gain competitive advantage
transform the business and be greener

Different Flavours of Telepresence EPs

- Immersive
- Room Systems
- Desk
- On the road
- Mobile

Telepresence on the Desktop

- Business Video Clients
 - MOC
 - PVX
 - MOVI
 - ...
- HW Requirements
 - HD Video = 4-Core CPU?
 - Video = Windows-PC only?
- Picture Quality
 - Camera
 - Format

Business Video Clients

HD-Video = 4-Core CPU ?

Cisco Video Codec; 2-Core is enough!

Video = Windows PC only?

Picture Quality

Movi 4.0 Demo

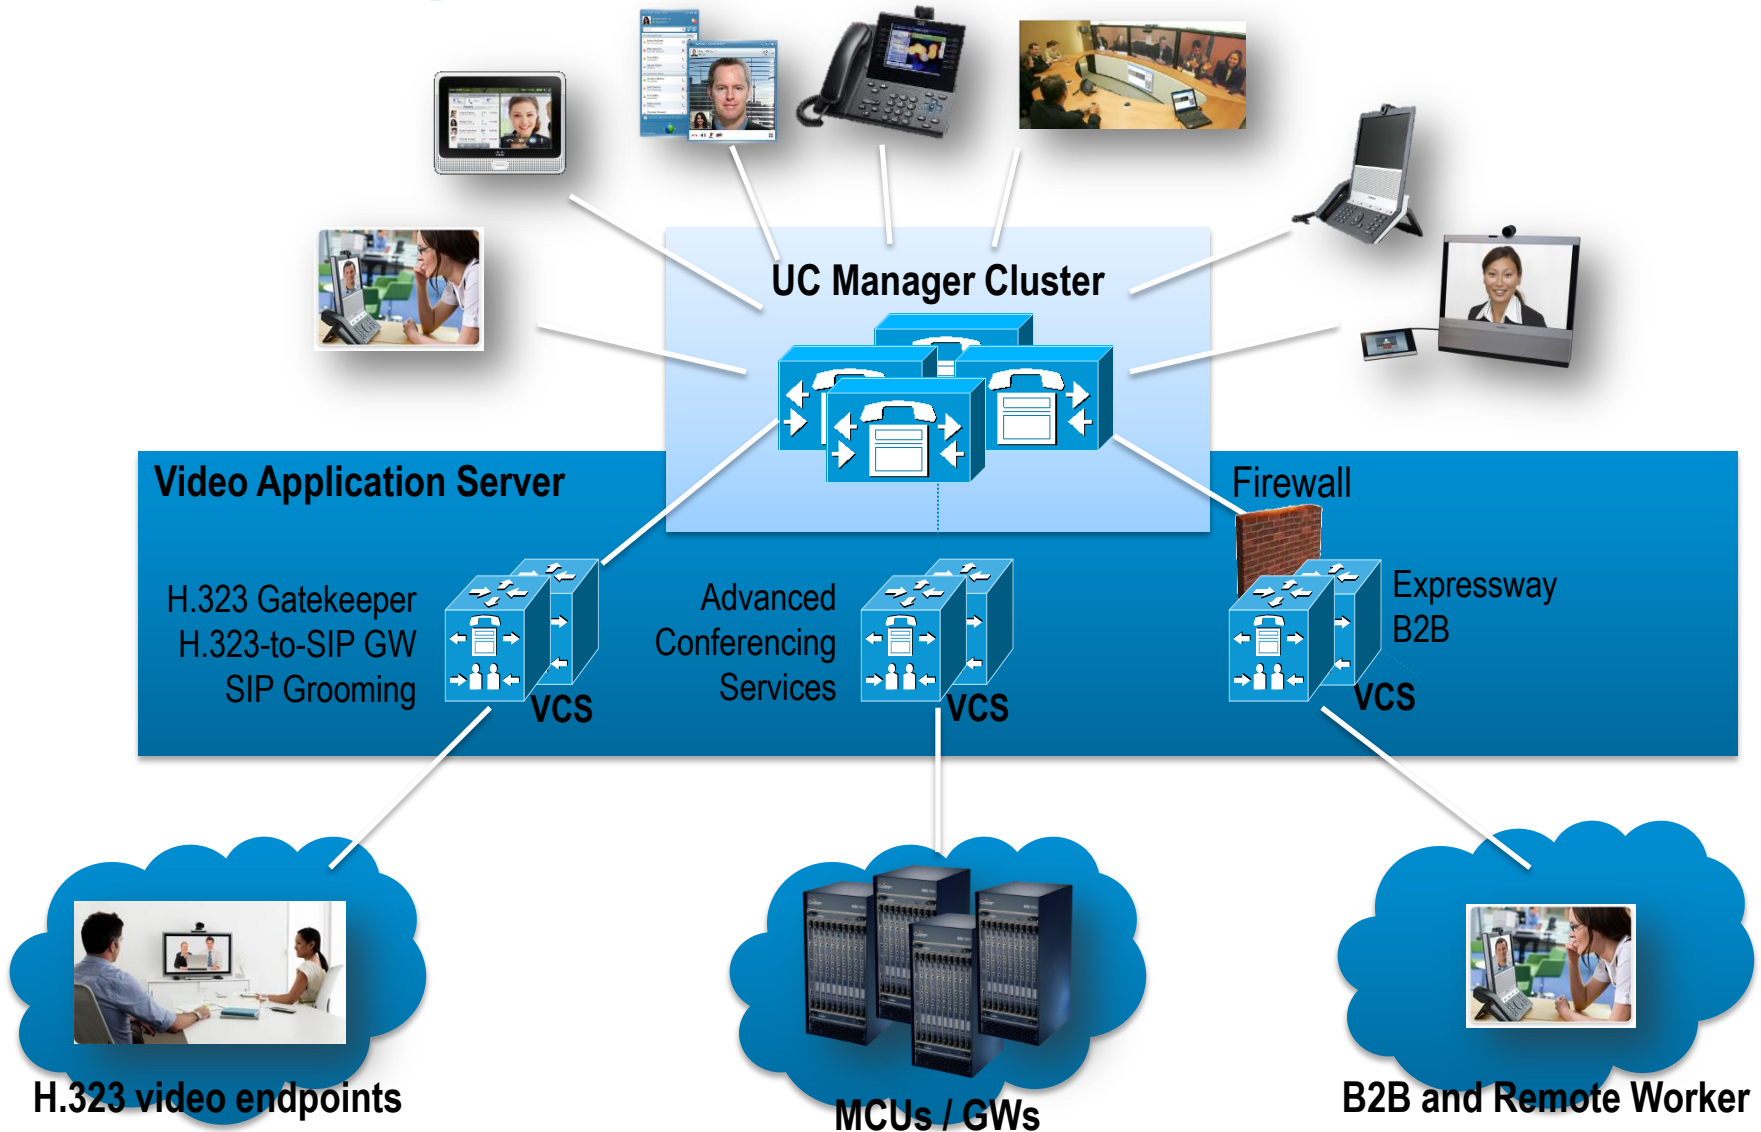

Video-Infrastructure: What's in there...

- Server requirements
 - MCUs /GWs
 - Bandwidth Control
- Interoperability
 - Standard based
 - Microsoft
- RTA/V to H.264 GW
 - Cisco/TANDBERG AMG

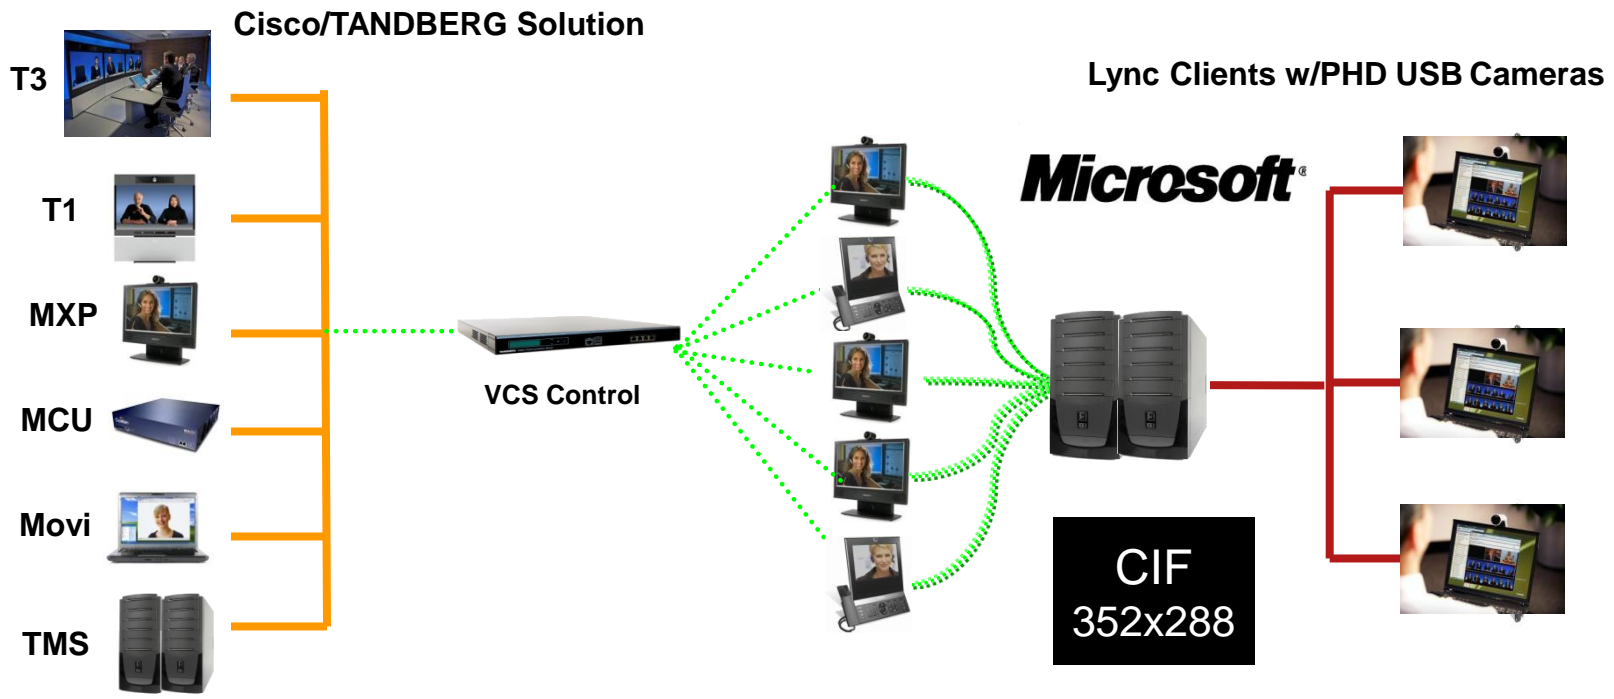

Server requirements

Interoperability

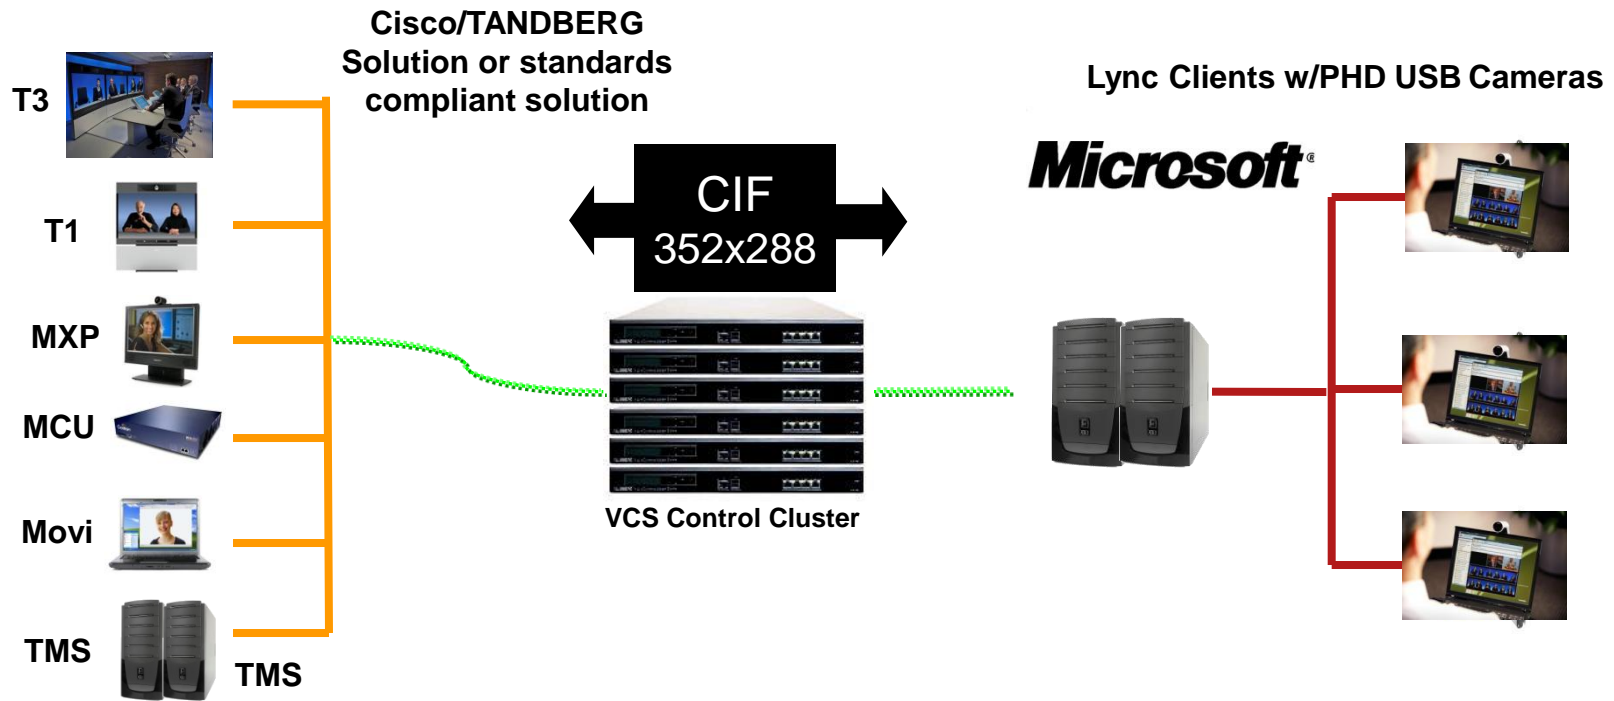

Individual Registration Solution with Microsoft

Interoperability

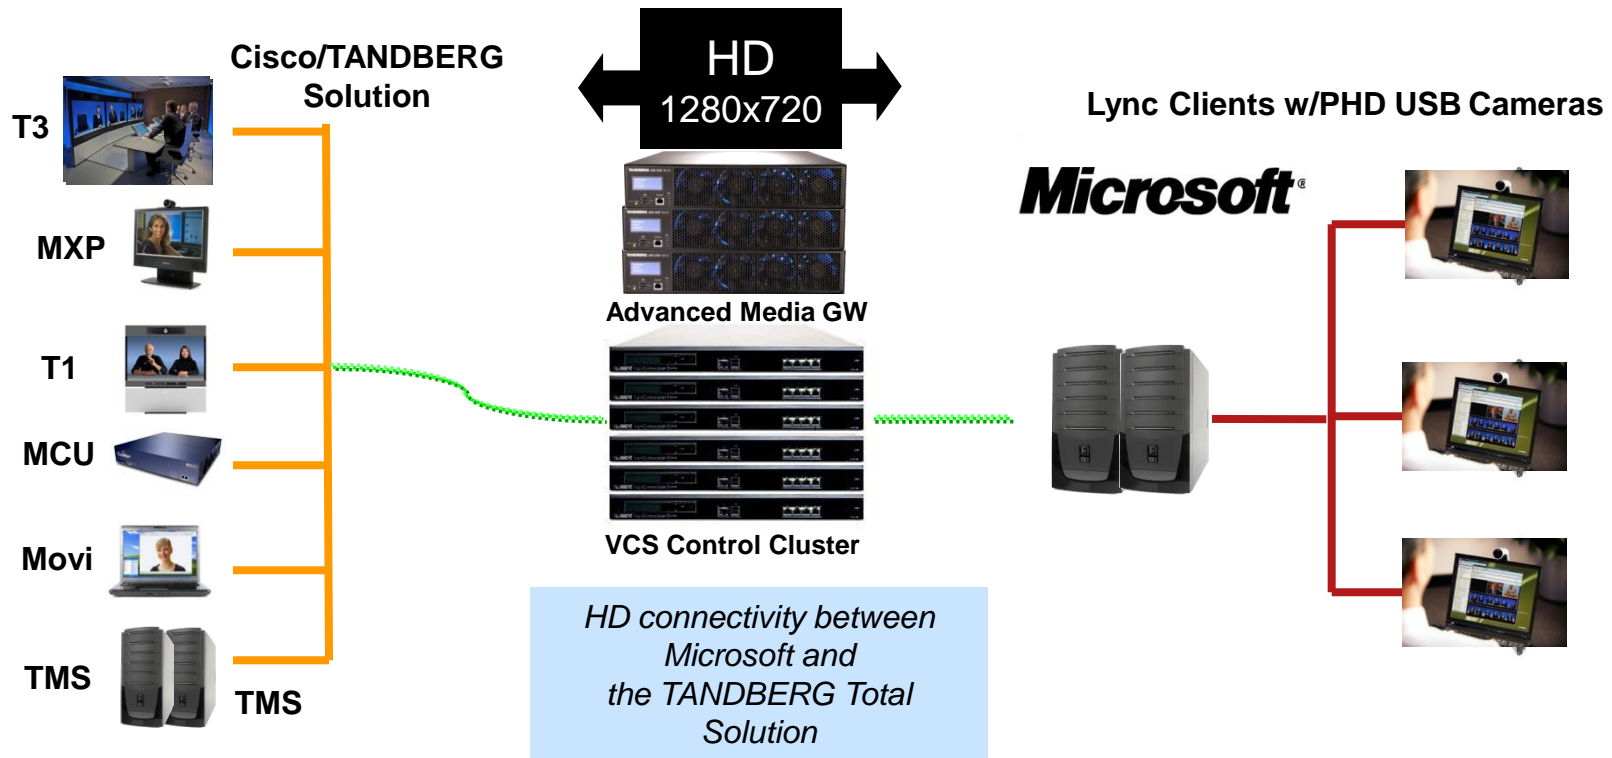

Network Centric Solution with Microsoft

Prior to the TANDBERG Advanced Media Gateway

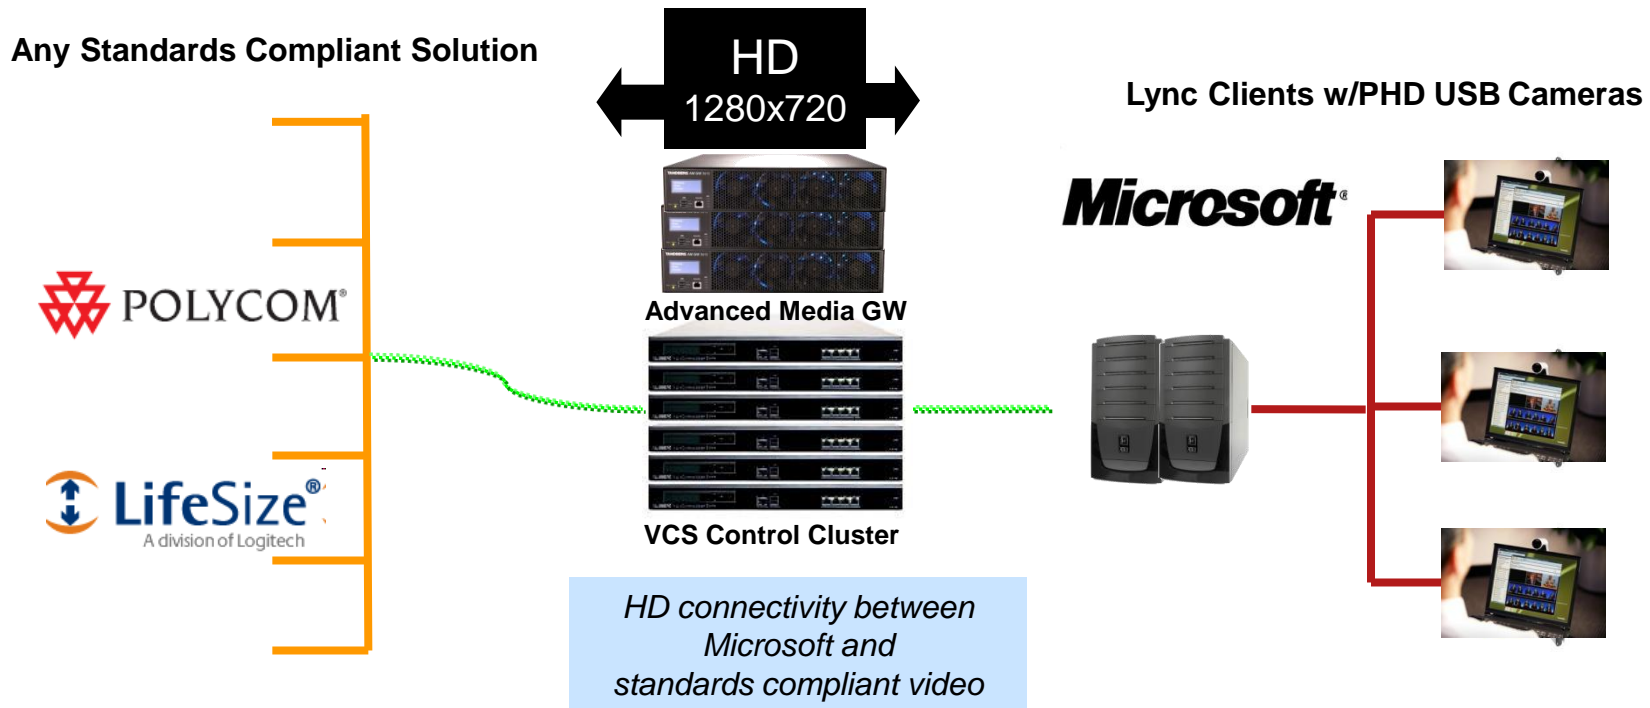

RTA/V to H.264 GW

Cisco/Tandberg UC Solution for Microsoft

RTA/V to H.264 GW

Competitive Rescue
